# 2023 PINOT GRIGIO

SUISUN VALLEY AVA

## OUR PROCESS

Pinot Grigio is often considered challenging and difficult to grow due to its susceptibility to uneven ripening and sunburn. Therefore, it is crucial to use proper trellising techniques to create the ideal canopy to protect from extreme heat. Directional row placement is also important, especially in our windy valley to protect from shatter during fruit set.

Fortunately, our Suisun Valley provides optimal growing conditions for challenging grape varieties, and our vineyard practices adhere to the highest standards, allowing our 2023 Pinot Grigio to truly stand out.

## TASTING NOTES

This wine delights the senses with radiant aromas of delicate white florals and zesty citrus, paving the way for a palate of succulent green apple and luscious ripe stone fruit, offering a refreshing finish that is both clean and lively.

Easily complement your Pinot Grigio with light, fresh flavors. This delicate, neutral wine is the perfect match for summery dishes such as salads, chicken, and seafood, as well as light pasta dishes and risotto.
